

Proposal I -- Repetitive Module

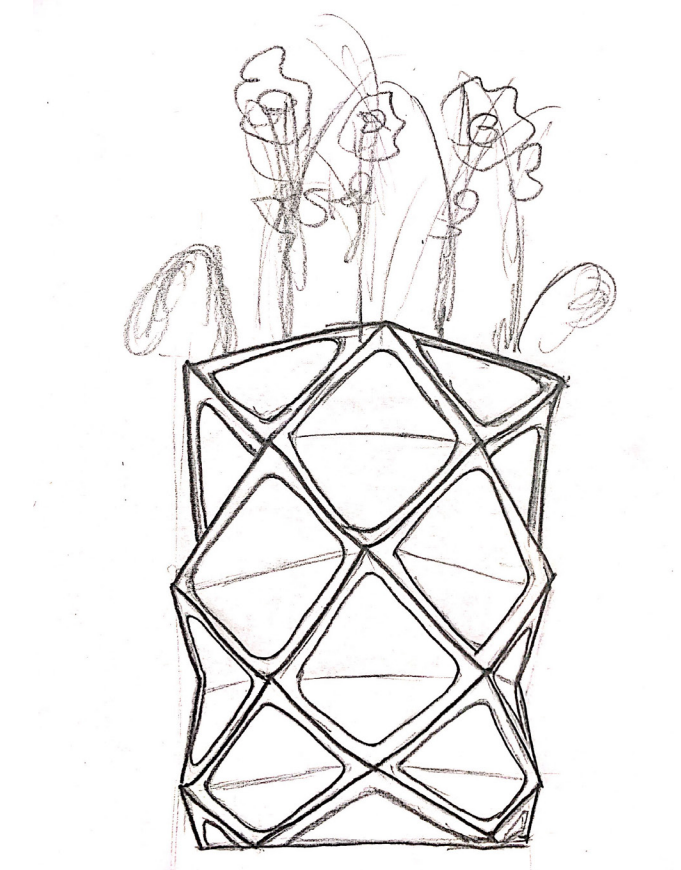

Poly International Plaza Designed By SOM in Beijing. Repetitive Modules comes together to form a unity.

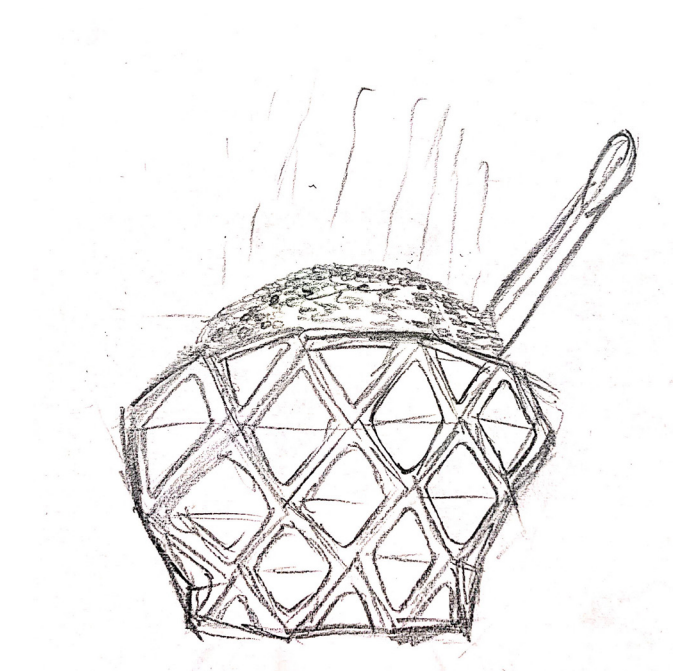

3d Model of Module

Sketches

Flower Pot

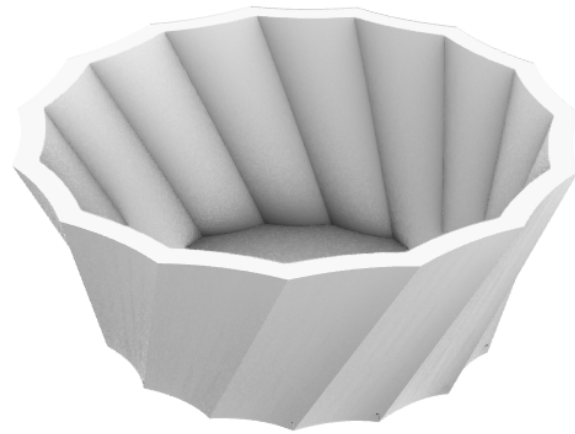

Bowl

Proposal II -- Shift List

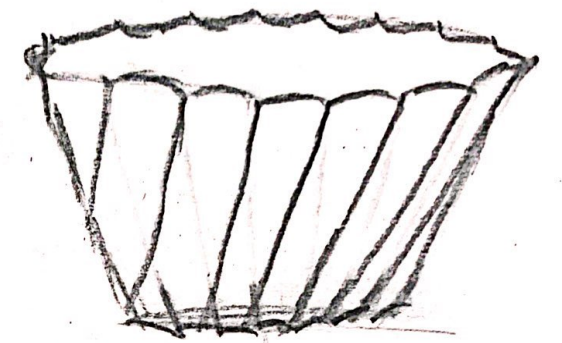

On the left is Canton Tower in Guangzhou, China. It is a famous TV tower made with grasshopper command Shift list.

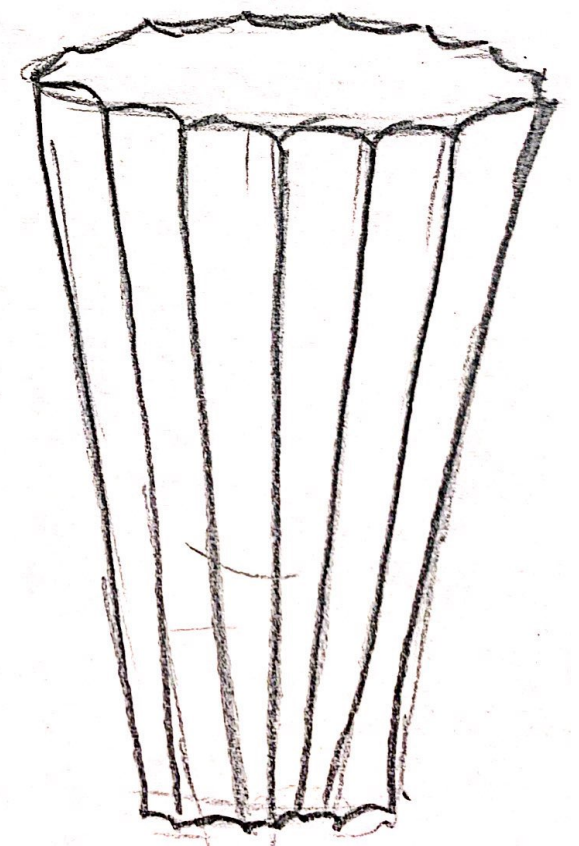

3d Model of Module

Vase

Bowl

Cup

Proposal III -- Contouring

Tianjin binhai Library uses the technique of contouring to create a cohesive geometry.

3d Model of Module

Cup

I wanted to use that same technique to create vessels for this assignment. Contouring a basic shape and then curving the edges.
